

Are you missing sales because your website is not being regularly submitted to key search engines?

Could poor search engine rankings be costing you sales!

Search engine submission can increase the ranking of a website within the search engines by using careful analysis and submitting techniques.

By using these techniques we can dramatically improve the positioning of your website with all the major search engines.

BBI provides two great-value search engine products to meet the needs of every organisation.

SUBMIT 100 - only £195.00 per year (plus vat)

The BBI Submit 100 programme provides submissions to the key 100 search engines each month for a full year. With this plan, it typically takes 6-8 weeks for a site to start appearing in the search engines. All you need to do is order the service once and we will handle the submission process for a whole year.

The programme includes:

- Submit to over 100 search engines - we will submit your website to the leading 'primary' 100 search engines and directories, reaching over 85% of Internet users. We are constantly updating our list of search engines to make sure that your site is submitted to the key search engines, those that will drive the most qualified traffic to your website.
- 12 monthly re-submissions - your site will be submitted each month for a full year. Submitting your website manually to one search engine is not enough. Submitting manually to hundreds, each month, is impossible. We submit your site every month; to make sure search engines will not drop your listings.

SUBMIT 400 - only £295.00 per year (plus vat)

This programme provides fast automatic submission to over 400 search engines and directories (including the country specific versions of Google, MSN and Yahoo), reaching close to all Internet search engine users. This plan is ideal for customers have the need for maximum reach and exposure.

This programme includes everything from the BBI Submit 100 programme, plus:

- Guaranteed listing in Google - your site will be in the Google listings within 8 weeks.
- Submit to 400 search engines - with this programme we submit your site to over 400 search engines, assuring worldwide exposure and reach.
- 12 months guaranteed inclusion - typically, website owners have little control over when the search engines list and drop their website. With this programme we guarantee that your website will be listed for a whole year.
